

DATASHEET

IMO Core Periop

Powers better care through better operating room (OR) management

Optimizing OR reimbursements and billings

In order to optimize operating room scheduling and billing, a number of critical pieces must fall into place. Healthcare organizations need to clean their procedure lists to optimize preference card management, they must maintain extensive surgical scheduling dictionaries, and procedure names must be linked to the appropriate coding systems.

Those responsible for this process face a number of difficult challenges. Dictionary governance can be complex and legacy content is often incomplete, disorganized or ambiguously named. Meanwhile, procedure lists, if not constantly cleaned, can impact the proper management of surgical preference cards. And misalignment on any of these factors can jeopardize reimbursements and more importantly, the safety of OR procedures.

The IMO alternative

IMO Core Periop is an OR optimization solution that does the heavy lifting of standardizing, coding, and maintaining the procedures in your surgical dictionary by leveraging the perioperative nursing expertise of AORN (Association of periOperative Registered Nurses) and our industry-leading clinical terminology. IMO Core Periop allows you to customize your dictionary from our menu of over 50,000 base procedure names, as well as refine it by exposing duplicate terms.

IMO Core Periop helps you:

1

Deliver more intentional care

- Supports best practice naming conventions developed by IMO clinical terminologists
- Aligns your surgical care with current perioperative standards
- Identifies irrelevant or out-of-date procedures as aligned to AORN Syntegrity®

2

Enhance profitability

- Ensures that all procedures are mapped to the appropriate billing code sets to maximize reimbursements
- Standardizes procedure naming to reduce waste and procedure spend
- Code mappings drive and support downstream reporting

3

Improve operating room management

- Identifies and correctly classifies procedure names to reduce OR downtime
- Optimizes time averaging for efficient block utilization
- Uses plain clinical language to ensure rooms are set up properly

Terminology and insights

Our industry-leading clinical interface terminology (CIT) solutions form the foundation of the IMO platform. IMO Core solutions, including IMO Core Periop, provide clinically-validated, continuously updated, curated content and intuitive workflow applications. IMO Precision solutions leverage the power of our Core offerings to deliver content, software, and services that provide more precise analysis and reporting of data – from patient to population.

* IMO Clinical Data Summarization Tool is not available for any use, commercial or non-commercial. Information regarding potential future products is intended to outline our general product direction and it should not be relied on in making a purchasing decision. IMO Clinical Data Summarization Tool is not a formal, commercially-approved IMO product name.

IMO SOLUTIONS SUITE

IMO Core

A clinical interface terminology (CIT) solution to better manage diagnoses and patient problem lists

IMO Core Periop

A CIT solution that maintains the procedures in your surgical dictionary to optimize your operating room

IMO Core Procedure

A CIT solution that maps procedure terms to appropriate billing and reference codes

IMO Precision Sets

Up-to-date value sets for better quality reporting and understanding of patient cohorts

Intelligent Medical Objects

At IMO, we are dedicated to powering care as you intended, through a platform that is intelligent, intuitive, and intentional. We offer a portfolio of products that includes terminologies and value sets that are clinically-vetted, always current, and maintenance-free. This aligns to provider organizations' missions, EHR platforms' inherent power, and the evolving vision of the healthcare industry while ensuring accurate care documentation and administrative codes. So clinicians can get back to being clinicians, health systems can get reimbursed, and patients can more easily engage in their own care. As intended.

To learn more about how IMO Core Periop can help your organization unlock new value from your EHR, contact us at sales@e-imo.com or **847-272-1242**.
