# At a glance:
Code system updates for 2020-21

Every year, and in some cases multiple times per year, medical coding systems release important updates that create ripple effects across the healthcare industry. Knowing when updates are scheduled allows for better planning and preparation for the millions who work with codes every day. Since clinical interface terminology is the foundation of what we do at IMO, we compiled an at a glance calendar of code releases for 2020-2021. We hope it comes in handy.

About Intelligent Medical Objects

At IMO, we are dedicated to powering care as you intended, through a platform that is intelligent, intuitive, and intentional. We offer a portfolio of products that includes terminologies and value sets that are clinically vetted, always current, and maintenance-free. This aligns to provider organizations' missions, EHR platforms' inherent power, and the evolving vision of the healthcare industry while ensuring accurate care documentation and administrative codes. So clinicians can get back to being clinicians, health systems can get reimbursed, and patients can more easily engage in their own care. As intended.
