

DATASHEET

IMO Core Periop

Powers better care through better operating room (OR) management

Optimizing OR reimbursements and billings

In order to optimize operating room scheduling and billing, a number of critical pieces must fall into place. Healthcare organizations need to clean their procedure lists to optimize preference card management, they must maintain extensive surgical scheduling dictionaries, and procedure names must be linked to the appropriate coding systems.

Those responsible for this process face a number of difficult challenges. Dictionary governance can be complex and legacy content is often incomplete, disorganized or ambiguously named. Meanwhile, procedure lists, if not constantly cleaned, can impact the proper management of surgical preference cards. And misalignment on any of these factors can jeopardize reimbursements and more importantly, the safety of OR procedures.

The IMO alternative

IMO Core Periop is a clinical interface terminology solution that helps surgical coordinators accurately schedule procedures to enhance perioperative workflows, optimize operating room utilization, and improve reimbursement. IMO Core Periop leverages the industry-leading perioperative expertise of AORN Syntegrity® to create surgical scheduling content that incorporates evidence-based best practice procedure lists and maps them to standardized terminologies and associated reimbursement codes in order to increase profitability.

IMO Core Periop helps you:

1

Deliver more intentional care

- Utilizes standardized procedure names provided by IMO clinical terminologists
- Consolidates procedure lists by eliminating inconsistencies and duplicative terms
- Aligns surgical care with current perioperative standards

2

Enhance profitability

- Maps correct CPT codes to procedures for improved billing accuracy
- Reduces inpatient-only denials by correctly classifying procedures
- Standardizes procedure naming to reduce waste and procedure spend

3

Improve operating room management

- Potentially optimizes time-averaging for efficient block utilization
- Ensures accurate room set up to reduce idle time and wasted resources
- Identifies and correctly classifies procedure names to reduce OR downtime

Terminology and insights

Our industry-leading clinical interface terminology (CIT) solutions form the foundation of the IMO platform. IMO Core solutions, including IMO Core Periop, provide clinically-validated, continuously updated, curated content and intuitive workflow applications. IMO Precision solutions leverage the power of our Core offerings to deliver content, software, and services that provide more precise analysis and reporting of data – from patient to population.

IMO SOLUTIONS SUITE

IMO Core

A clinical interface terminology (CIT) solution to better manage diagnoses and patient problem lists

IMO Core Periop

A CIT solution that maintains the procedures in your surgical dictionary to optimize your operating room

IMO Core Procedure

A CIT solution that maps procedure terms to appropriate billing and reference codes

IMO Precision Sets

Up-to-date value sets for better quality reporting and understanding of patient cohorts

IMO Precision Normalize

A precise normalization engine that standardizes inconsistent diagnosis, procedure, medication, and lab data from diverse systems into common, clinically-validated terminology

Intelligent Medical Objects

At IMO, we are dedicated to powering care as you intended, through a platform that is intelligent, intuitive, and intentional. We offer a portfolio of products that includes terminologies and value sets that are clinically-vetted, always current, and maintenance-free. This aligns to provider organizations' missions, EHR platforms' inherent power, and the evolving vision of the healthcare industry while ensuring accurate care documentation and administrative codes. So clinicians can get back to being clinicians, health systems can get reimbursed, and patients can more easily engage in their own care. As intended.

To learn more about how IMO Core Periop can help your organization unlock new value from your EHR, contact us at sales@e-imo.com or **847-272-1242**.
